

CERTIFICATE OF ANALYSIS

Sample# 256325

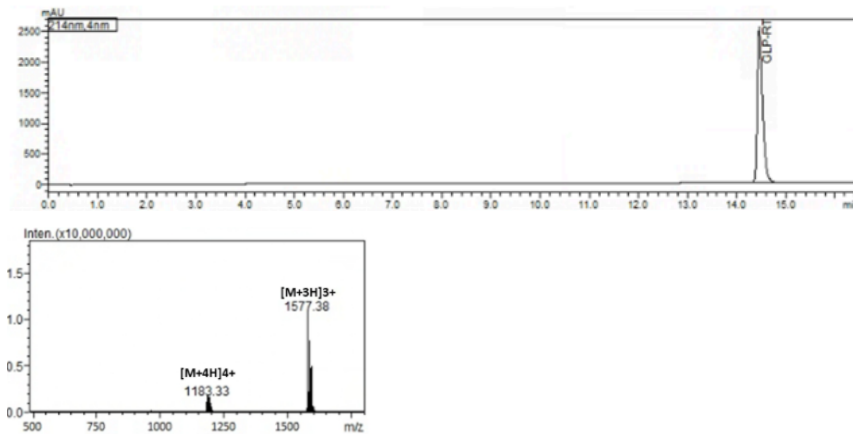

PRODUCT INFORMATION

Product Name: Control Sample	Client:	Manufacturing Date: Oct 10, 2025
CAS No.:	Molecular Formula:	
Lot No:	Received date: Jan 2 2026	Quantity: 10mg

ANALYTICAL TEST RESULTS

Lot No:	Appearance: White Lyophilized Powder		
Overall Purity: 99.78%	Range: +/-1	Pass/Fail:	Pass
Content (mg): 10.23	Range: +/-10%	Pass/Fail:	Pass

USAGE AND LIMITATIONS

The analytical characterization and Microbial Limit Testing (MLT) reported here were conducted using LC-MS/MS (Liquid Chromatography-Tandem Mass Spectrometry) and standard agar-based cultivation protocols. This analysis is intended for informational purposes only and is specific to the analyte lot provided. The tested substances are intended for in vitro research use only and are not validated for human or veterinary administration, nor for clinical diagnostic or therapeutic applications. Purity and/or Bioburden results and profiles should be interpreted by a qualified professional within the scope of the intended research. The accuracy of the chemical purity and/or Colony-Forming Unit (CFU) counts may be influenced by sample integrity, aseptic handling, and other pre-analytical variables.
